

# Yes! Cartons Are Recyclable

Harrison Industries and the Carton Council encourage you to recycle your cartons.

## What types of cartons are recyclable?

### Shelf-stabled:

- ☞ Juice
- ☞ Milk
- ☞ Soy and grain milk
- ☞ Soup and broth
- ☞ Wine

### Refrigerated:

- ☞ Juice
- ☞ Milk
- ☞ Soy and grain milk
- ☞ Egg substitutes
- ☞ Cream

## Don't Forget

Simply remove caps, lids and straws before placing empty cartons in your blue recycle barrel. No need to rinse your cartons.

## Close the Loop

Paper represents 74-80 percent of a carton's content, which can be recycled into new products and building materials. By purchasing products with recycled content, you are generating the demand for recycled materials!
